Program Statement

The Little Egypt Soccer club is a locally run 501c3 soccer organization, which is open to Centralia and all surrounding locations. The club was founded to develop the local area soccer players through their formative years and to give them everything they need to succeed at the elite high school and college levels of soccer.

The Little Egypt Soccer Club's mission is to "provide a learning environment in the game of soccer that includes the qualities of workmanship, strategy, physical fitness, competition, sportsmanship and the pursuit of excellence."

It is Little Egypt's responsibility to provide the best training and the opportunity to compete against the best competition both locally and nationally. The players are responsible to be at the training and games to receive the maximum benefit provided by the club. The parents have a financial responsibility and can volunteer their time and qualities to the club.

The club currently operates on volunteer help, to include all coaches and workers. All money received goes back into the club towards the players and grounds. Player fees are currently set at \$60 per player at the elementary and junior high school level and \$200 per player at the high school level. This fee covers all league, referee, and tournament expenses. In addition, players will be required to purchase the team uniform. The uniforms can be worn until worn out or out grown.

For the club to grow and to enhance community involvement, families are encouraged to get involved and volunteer their time & talents with the club. If you wish to be involved in concessions, grounds upkeep, and other assistance as needed for games or tournaments, please contact a team manager, coordinator, or board member of the club.

Sincerely,

LESC
